

DIACTMOND NEWSLETTER

DECEMBER 2021

Dear DIACTMOND Colleagues and Friends,

Bellow an update regarding the progress in various aspects of the project.

- **The Project Midterm Report ...**

has been examined and approved by the Research and Innovation Foundation (our funding body). In addition, other necessary adjustments on the project budget have been discussed in the Management Committee, asked and approved also by RIF.

- **Device testing ...**

has gathered pace (WP4 - System Hardware, WP5- In vitro testing of the system), the production of multiple devices is arranged for preparation towards the next phase of the project (the clinical testing).

- **System software.**

The relevant partners are collaborating for the completion of the tasks (WP6-System Software Development). The design is near completion and first versions of the application have been produced.

- **Three abstracts were accepted and presented in ...**

the Joint Congress of the European Society for Clinical Hemorheology and Microcirculation, the International Society of Biorheology and the

International Society for Clinical Hemorheology in Fukuoka-Japan (on-line event):
<http://www.congre.co.jp/eschm-isch-isb2021/index.html>.

That is all for now. We will keep you updated with more news soon.
