

## DIACTMOND NEWSLETTER 6

**JULY 2022**

Dear DIACTMOND Colleagues and Friends,

On Tuesday the 19<sup>th</sup> of July we proceeded with the 2nd Workshop, and the End-of-2nd-Phase Meeting of the DIACTMOND Project. The event took place in the premises of the Partner EMBIO Diagnostics in Nicosia, and on the online platform TEAMS.

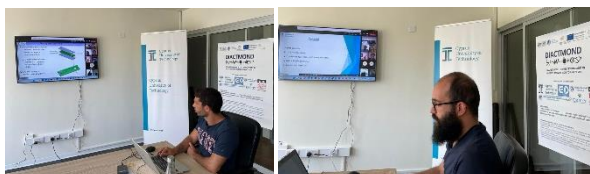

### The program included:

17:00 - 17:10: Welcome and Introduction by the Project Coordinator Dr. Stathis Kaliviotis and the host, Constantinos Loizou.

Presentations of the main outcomes of the project:

- 17:10 - 17:20: Development of the testing chip – Chip construction, flow and hemorheology effects. Dr. Dimitris Pasiadis (CUT).
- 17:20 - 17:30: Blood Coagulation and erythrocyte aggregation algorithmic techniques. Marinos Louka (CUT).

- 17:30 - 17:40:

Erythrocyte sedimentation rate in the testing chip. Dr. Andreas Passos (CUT).

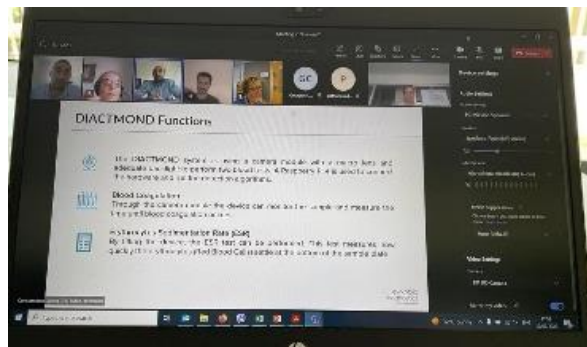

- 17:40 - 17:50: Device hardware, software, and assembly. Constantinos Loizou and Andonis Inglezakis (EMBIO), Marinos Louka and Andreas Passos (CUT).
- 17:50 – 18:00: Application software. Panos Athanasiadis, Alexis Furlis (VIDAVO).

- 18:00 – 18:10: Clinical testing. Dr. Savvas Psarelis (SHSO), Marinos Louka (CUT), Stela Pempetsiou (EMBIO).

18:10 – 18:15: Immediate and follow-up project tasks. Stathis Kaliviotis.

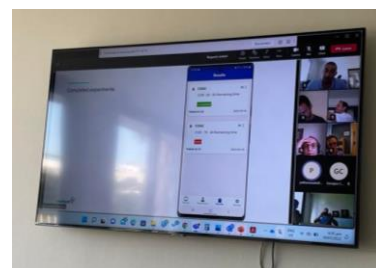

18:15 – 18:40: Discussion between Partners, Collaborators and Stakeholders.

18:40 – 18:45: Closing Remarks.

In the meeting the main results and outcome of the project were presented, followed by a discussion between partners and stakeholders on exploring the impact of the use of the system in the relevant environments.

The meeting also marked the final stage of the project, with the agreement of Partners and Collaborators to continue pursuing ways of cooperation in a follow-up stage.

The Coordinator and the Managing Team of the Project thank sincerely all partners and Collaborators involved, for their hard and persisting work.

Dr. Stathis Kaliviotis  
DIACTMOND Coordinator
