1. INTRODUCTION

DOSSIER-Cloud's social networks accounts were created so as to offer a forum for disseminating information about the project, its objectives, progress and main results. The project's presence on Facebook and Twitter is expected to promote the reachability of its outcomes and assist industrial stakeholders and people that are simply interested in the project's objectives to establish a dynamic and ongoing communication link with its partners.

The rest of the document describes briefly the main screens of the Facebook and Twitter accounts.

2. FACEBOOK PAGE

The FB account may be accessed using the link <http://fb.dossier-cloud.eu> or by just searching for DOSSIER-Cloud using the Facebook search box. The FB page presents the latest posts from all partners of the project, as well as any updates on the website's content, photos, interesting articles etc.

The screenshot shows the Facebook page for DOSSIER-Cloud. The cover image is a word cloud with terms like 'Development', 'Resource', 'Dossier', 'DevOps', 'Engin...', 'Software', 'Metrics', and 'CUTUvT'. The page name is 'DOSSIER-Cloud Community'. A recent post from Panayiotis Christodoulou (7 mins) says 'The website is finally ready. Visit us and know more about our project only at: www.dossier-cloud.eu'. The page also includes navigation tabs (Page, Messages, Notifications, Publishing Tools), a search bar, and various promotional options like 'Boost Post' and 'Promote Page'.

3. TWITTER ACCOUNT

The Twitter account may be accessed using the link <http://twitter.dossier-cloud.eu> or by just searching for DOSSIER-Cloud at the Twitter search box. The Twitter page shows the latest tweets from all partners or followers of the project.
