1. City of Lublin

Lublin has always been one of Poland's most important cities. Due to its geographical location and history, Lublin has often played the role of a bridge between East and West. Interestingly, it also often took the lead at crucial historical moments when Poland's fate hung in balance. In 1569 the so-called Lublin Union was signed here, uniting Crown of the Kingdom of Poland and Grand Duchy of Lithuania into a single political entity, thus creating the largest European state of the time. In the final days of World War I, Poland's first independent government (which soon ceded power to Józef Piłsudski) was founded in Lublin. It was here again that the provisional communist government was installed by the Soviets in July 1944, during the last stages of World War II. Lublin is also considered by some to be the cradle of Solidarity; the avalanche of strikes that spread throughout Poland in 1980 and eventually led to the Gdansk agreements began in Lublin.

Today Lublin is the largest and most important industrial, commercial and educational centre in eastern Poland. It is no exaggeration to call Lublin a city of universities. At present, Lublin has 4 universities and a few colleges with the total of over 70,300 students, while the population of Lublin is approximately 340,000. If one adds the rich and thriving cultural life that imparts a unique artistic flavour to the atmosphere of Lublin, our city appears to be an ideal place in which to spend part of your colourful student life.

For further information about the city of Lublin, please consult the city's official website:

Come and enjoy Lublin!

2. The John Paul II Catholic University of Lublin

The John Paul II Catholic University of Lublin, founded in 1918, is one of the oldest and most renowned universities in Eastern Europe and is the only one possessing full state and Church rights in Poland. At present, KUL enrolls over 12,000 students, including over 600 foreign students in its various programmes. The university has a reputation for high standards of education and research, the profile of which is determined by humanistic tradition of the university as well as openness to the needs of a contemporary man.

The University has eight faculties organized into institutes and departments with over forty degree programmes. There is one off-campus faculty in Stalowa Wola.

Due to Lublin's geographical location and its history, KUL has strong ties both with the East and the West. It is only a stone's throw from Lublin to such marvellous and thriving cities as Warsaw, Cracow or Lviv.

The graduates and the faculty of KUL hold many important positions in social, cultural, ecclesiastical and political life. Among them was the Pope John Paul II, who had held the Chair of Ethics in KUL's Faculty of Philosophy for many years.

2.2 Academic calendar

The academic year consists of two semesters: winter semester (October to January) and summer semester (February to June).

There are several holiday breaks: Christmas break in December, a break between winter and summer semester in February and the spring break that falls at the time of Easter (March/April).

The detailed academic calendar 2017/18 will be available on our website in June 2017.

Orientation Days for Erasmus+ students are organised a few days before the beginning of each semester.

2.3 Assessment and grading system

The semestral system requires 15 weeks of classes followed by a two or three-week examination period. There are two ordinary examination periods per academic year. The first is held in the end of January and the first half of February. The second is held in June. Students who do not pass their exams during the first exam session may retake them during the make-up exam session (mid-February and July). This means that every examination can be taken twice per semester.

Each student has to attend classes regularly and comply with the teacher's requirements in order to pass a given course.

Local grade	ECTS grade	Local definition
5	A	very good
4+	B	better than good
4	C	good
3+	D	better than satisfactory
3	E	satisfactory
2	FX/F	unsatisfactory (fail)

2.4 Library

The KUL University Library is a single library system with a network of libraries in the institutes, research centres, and faculties of the university. 5.3 City sights

There are so many choices and interesting sights in Lublin that it would be difficult to recommend just a few. However, there are some places that are an absolute must for all visitors:

Old Town

One of the most beautiful in Poland. Its uniqueness lies in its preservation of the original medieval town plan within the confines of its defensive walls. All the old townhouses are distinguished by rich artwork that still preserves its Gothic and Renaissance character. Apart from great sightseeing value, tourists are attracted by the abundance of stylish cafes, pubs and restaurants.

The Cracow Gate

One of the most well-known landmarks of Lublin – it can be found in hundreds of photographs and drawings. Built in half of XIV century in the Gothic style, it was rebuilt in the XVI century in Renaissance style with a baroque copula. Today, the Gate houses the Historical Museum of Lublin.

The Castle complex

One of the grandest sights in Lublin. The oldest parts of the castle date back to the middle of the 13th century. The castle served as a prison until 1954. During the Nazi occupation there were over 80,000 people interned here. Today, the castle houses the extensive Lublin Museum, with over 100,000 artefacts in various permanent exhibitions.

The Holy Trinity Chapel

A unique building in Poland and an exceptionally rare monument in Europe, famous for its unique Russo-Byzantine frescoes from the early 15th century combined with the Gothic style of the Chapel. It is the only example in Poland of this kind of art that has been preserved almost untouched.

The Cathedral

The former Jesuit church dating from the end of the 16th century; it is particularly interesting because of its acoustic vestry as well as grand and stylish interior with baroque wall paintings.

The Museum in Majdanek

A preserved section of the infamous concentration camp organized by the Nazis in 1941-42. Majdanek was the second largest death camp (after Oświęcim-Brzezinka) in the countries of occupied Europe. It operated till liberation in July 1944, and during that period some 360,000 people, representing 51 nationalities from 26 countries, were exterminated. The permanent camp exposition consists of the post-camp objects: prison fields surrounded with the barbed wire, guard towers, prisoners' barracks, gas chambers and the crematorium with the tomb of those murdered in the camp. You can also see documentaries shown in a small cinema.

Going outside Lublin

The city is also an excellent base if you want to travel further and visit other beautiful spots in the Lublin Region, including:

Kazimierz Dolny – an architectural and cultural pearl of the region

Kozłówka – with the beautiful Zamoyski Palace Complex housing, a unique gallery featuring socialist-realist "art"

Nałęczów – a well-known, beautifully situated spa the 18th-century baroque-classicist Małachowski Palace

Zamość – its Old Town is included on the UNESCO World Heritage list

5.4 Sport activities

Among university facilities is also a very modern and well-equipped sports centre. From among a great variety of sport sections you can choose team sports (basketball, volleyball, handball, etc.), badminton, rowing, aerobics, tennis, swimming, gym, athletics, climbing, chess, judo, karate and others.

If you want to participate in one of these sport sections, you should go directly to the coach. However, we would advise you to ask your Guardian Angel for help. You should be aware of the fact that probably you will have to pay some fees (e.g. insurance, etc.).

There are also regular physical education classes – check the programme for the 1st year in your degree programme.
